Six Monthly Compliance Report_29 Maan_October 2024 to March 2025.pdf;

Dear Sir/Madam,

Please find the Six monthly Compliance Report attached herewith for Period of October 2024 to March 2025 of 'Yashone Hinjewadi' Residential and Commercial project proposed on plot bearing Survey No. 29/1, 29/2, 31, 32(P), 43/5, 43/6, 43/7 Village- Maan, Tal. Mulshi, Dist. Pune, Maharashtra by 'M/s. Vilas Javdekar Eco Shelters Pvt. Ltd'., with reference to Environmental Clearance No. SEIAA-EC-0000000431 dated 18th September, 2018 for which further expansion was taken with Environmental Clearance Letter No. SEIAA-EC-0000002062 dated – 7th November 2019.

Hope this is in line with your requirement.

Thanking you

Yours Sincere

M/s. Vilas Javdekar Eco Shelters Pvt. Ltd.

Date:

To.

Ministry of Environment and Forest & Climate Change

Regional Office (WCZ), Ground Floor,

East Wing, New Secretariat Building, Civil Line,

Nagpur- 440001

Subject: Post EC Compliance Report for Period of October 2024 to March 2025 of Residential and Commercial Project "YashONE Hinjawadi" at Survey No. 29/1, 29/2, 31, 32(p), 43/5, 43/6, 43/7 Village- Maan, Tal. Mulshi, Dist. Pune, Maharashtra by M/s Vilas Javdekar Eco Shelters Pvt. Ltd.

Ref.: 1. Environmental Clearance No. SEIAA-EC-0000000431 dated - September 18, 2018

2. Revised Environmental Clearance No. SEIAA-EC-0000002062 dated - November 7, 2019

Dear Sir,

This is in reference to the requirement stated in the Environmental Clearance No. SEIAA-EC-0000000431 dated – September 18, 2018, which is further expansion in existing project on 7.11.2019 Environmental Clearance No. SEIAA-EC-0000002062 for our above mentioned Residential and Commercial Project "YashONE Hinjawadi" located at Survey No. 29/1, 29/2, 31, 32(p), 43/5, 43/6, 43/7, Village- Maan, Tal. Mulshi, Dist. Pune, Maharashtra by M/s Vilas Javdekar Eco Shelters Pvt. Ltd.

In accordance to your requirement, please find enclosed herewith following documents for post EC for the subject project for your kind reference:

- 1. Compliance report
- 2. Environment Clearance Letter
- 3. Budgetary provision for EMP
- 4. Consent to Establish Copy
- 5. Consent to Operate Copy
- 6. Advertisement Copy
- 7. Monitoring Report
- 8. CGWA NoC
- 9. Form V

Hope you will find the above in line with your requirement.

Thanking you,

Yours Sincerely,

For, M/s Vilas Javdekar Eco Shelters Pvt. Ltd.

Annexure 9	Copy of Submitted Environmental Statement for	
	financial year April 2023 to March 2024	

Section1: Purpose of the Report

As per the 'Sub Para (i)' of 'Para 10' of EIA Notification 2006 and Condition mentioned in General Conditions point No. L & LIII of Environmental Clearance (EC) letter dated 7th November, 2019 (Annexure 2), it is mandatory to submit six monthly compliance report to show the status & compliance of all the conditions mentioned in EC letter, along with monitoring of various environmental parameters. Therefore, based on specific and general conditions mentioned in EC letter detail compliance report is prepared.

Section 2: Project Details

M/s Vilas Javdekar Eco Shelters Pvt. Ltd. is proposing Residential & Commercial project - 'YashONE Hinjawadi' at Survey No. 29/1, 29/2, 31, 32(p), 43/5, 43/6, 43/7 Village- Maan, Tal. Mulshi, Dist. Pune, Maharashtra. Project is designed as self-sufficient establishment wherein infrastructure facilities such as water supply, power supply and communication facilities are proposed. Further the project proponent has made provision for solid waste collection and disposal, rain water harvesting and sewage treatment plant to ensure that project is environment friendly. The project proponent also proposes arrangement for safety, maintenance and security of residents. The main features of the project are as follows.

1.	Clearance letter (s)/OM no. and date	:	SEIAA-EC-0000002062 dated – November 7, 2019
2.	Location	:	Survey No. 29/1, 29/2, 31, 32(P), 43/5, 43/6, 43/7, village- Maan, Tal. Mulshi, Dist. Pune, Maharashtra
3.	(a) Address for correspondence		306, Siddharth Towers, Sangam Press Road, Kothrud, Pune - 411 038.
	(b) Address of Executive Project Engineer/ Manager (with pin code / Fax)	:	Mr. Subhash Belgaonkar Designation: Project Engineer M/s. Vilas Javdekar Eco Shelters Pvt. Ltd. Address: 306, Siddharth Towers, Sangam Press Road, Kothrud, Pune - 411 038. Telephone No.: + 91 9620678249 E-mail: subhash.belgaonkar@javdekars.com
4.	Salient Features		
	Total Plot Area (As per DC)	:	57,239 .00 m ²
	Net Plot Area	:	38,067.17 m ²
	Proposed FSI area	:	78,790.95 m ²
	Proposed Non FSI area	:	69,269.80 m ²
	Construction BUA (FSI + Non FSI)	:	1,48,060.75 m ²

No. of buildings	Total No. of Buildings: 8
5	Building A: P+22
	Building B : LG+UG+21
	Building C : LG+UG+21
	Building D : LG+UG+21
	Building E: LG+UG+22
	Commercial Building: B1+B2+LG+UG+8
	Multipurpose Hall: LG+UG
	Club House : G+1 (Landscape on podium)
No. of Tenants & Shops	Residential Flats: 942 nos.
No. of Tenants & Shops	Commercial Shops : 31
	Offices: 14
Expected No. of residents/users	Residential - 4710
Expected No. of residents/ users	Commercial – 1894
	Total - 6604
Domestic Water Requirement	462 m ³ /day
Recycled Water Requirement (For	Flushing: 144 m ³ /day
Flushing & Landscaping)	Landscaping: 259 m ³ /day
Trushing & Landscaping)	Landscaping . 239 in /day
	Swimming Pool: 10 m ³ /day
	105 m ³ /day (during non-monsoon)
	0 m ³ /day (during monsoon)
Sewage Generation	674 m ³ /day
No. & Capacity of STP	For residential buildings: 2 Nos.
	STP 1: 625 cu.m./day
	STP 2:90 cu.m./day
Solid Waste Generation	Non Bio-degradable Waste: 1226 kg/day
	Bio-degradable Waste: 1602 kg/day
	STP Sludge: 143.0 kg/day
Energy Demand	Maximum Demand:
	Residential: 2081.37 KW
	Commercial: 1009.40 KW
	Connected Load:
	Residential: 4795.57 KW
	Commercial:1514.12 KW
	D i G i i N
	During Construction Phase:
	O1 nos. X 125 KVA
	01 nos. X 125 KVA

5.	Breakup of the project area	
	(a) Submergence area : forest & non forest	Nil
	(b) Others	The entire project area is non-agricultural
		land.
6.	Breakup of the project affected population	The Proposed Project is located at the vacant
	with enumeration of those losing houses	land only clearing of small sized vegetation.
	/dwelling units only, agricultural land only,	Therefore, no population was dislocated or
	dwelling units & agricultural land &	affected due to proposed Project.
	landless labourers /artisan.	
	(a) SC, ST /Adivasis	Nil
	(b) Others	Nil
	(Please indicate whether these figures are	
	based on any scientific and systematic	
	survey carried out or only provisional	
	figures, if a survey is carried out give	
	details and years of survey)	
7.	Financial details	
	(a) Project cost as originally planned and	Project cost (Planned): Rs. 341.23 Crores
	sub-sequent revised estimates and the	(Approx)
	year of price reference.	
	(b) Allocation made for environmental	Attached As Annexure – 3
	management plans with item wise and	
	year wise break-up.	
	(c) Benefit cost ratio/Internal rate of	Yet to finalise.
	Return and the year of assessment	
	(d) Whether (c) include the cost of	Not applicable since (c) is yet to finalise.
	environmental management as shown in	
	the above.	
	(e) Actual expenditure incurred on the	Rs.341.23 Crores
	project so far	
	(f) Actual expenditure incurred on the	Capital Cost: Rs. 854.95 Lakhs.
	environmental management plans so far	O & M Cost: Rs. 84.76 Lakhs
8.	Forest land requirement.	There is no forest land involved.
	(a) The status of approval for diversion of	Not applicable.
9	forest land for non-forestry use	
	(b) The status of clearing felling	Not applicable
	(c) The status of compensatory	Not applicable
	afforestation, if any	
	(d) Comments on the viability &	Not applicable
	sustainability of compensatory	
	afforestation programme in the light of	
	actual field experience so far	N. C 1
9.	The status of clear felling in non-forest	No. of trees to be cut/ transplanted = 10 nos.
	areas (such as submergence area of	Additional compensatory trees for
	reservoir, approach roads), if any with	transplantation in ratio 1:3= 30 nos.
	quantitative information.	
10.	Status of construction	As attached

	a) Date of commencement (Actual and/o planned)	Building B - 22.02.2019 Building C - 25.07.2019 Building E - 15.01.2020 Building D - 15.11.2021
	b) Date of completion (Actual and/or planned)	09.01.2025
11.	Reason for the delay if the project is yet to start.	Not applicable
12.	Dates of site visits	
	(a) The dates on which the project was monitored by the Regional Office on previous occasions, if any	Nil
	(b) Date of site visit for this monitoring report	-
13.	Details of correspondence with project authorities for obtaining action plans / information on status of compliance to safeguards other than the routine letters for logistic support for site visits.	Letter issued by MoEF: SEIAA-EC-0000002062- Annexure 2 CTE: BO/JD(WPC)/UAN-081084/CE/CC-200100722 Dated- 09/01/2020 Attached as Annexure 4
	(The first monitoring report may contain the details of all the letters issued so far, but the later reports may cover only the letters issued subsequently.	CTO (Part – I): Format1.0/CC/UAN No.0000124765/CO/2208000909 Dated 19/08/2022 Attached as Annexure 5A
		CTO (Part – II) Renewal of consent to operate (Part-I) with amalgamation of Consent to operate (part-II): Format1.0/CC/UAN No.0000161930/CR/2304002111 dated 28.04.2023. Attached as Annexure 5B

Section 3 : Present Site Conditions

Sr. No.	Building Component	Current status of Work
1	Building A	Completed and Handover
2	Building B	Completed and Handover
3	Building C	Completed and Handover
4	Building D	Completed and Handover
5	Building E	Completed and Handover
6	Commercial Building	Possession Ongoing
7	Club House	Completed and Handover.

Section 4: Post Environment Clearance Compliance Report

The proposal has been considered by SEIAA in its 179th meeting decided to accord environmental clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subjected to implementation of the following terms and conditions:

Sr. No	EC Condition	Compliance Status			
Specific	Specific Condition:				
i	PP to ensure that CER plan gets approved from Municipal Commissioner/District Collector	We have submitted the approved CER plans to SEIAA.			
ii	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F.No.22-34/2018-IA.III dt.04.01.2019.	Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F.No.22-34/2018-IA.III dt.04.01.2019. will be complied.			
iii	SEIAA decided to grant EC for –FSI: 78790 m2, Non-FSI:69269.80 m2 and Total BUA: 148060.75 m2 (Plan Approval no-BMU/CR/1131/Mauje Maan/S.N.29/1(P) & ors, Date-23.08.2019)	Condition Noted and agreed.			
General	Condition				
i	E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules,	We will dispose E-waste through authorized vendor.			
	2016.				
ii.	The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.	Condition is noted. We will comply the same.			
iii.	This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily imply that Forestry & Wild life clearance granted to the project which will be considered separately on merit.	No NOC is required from the Forestry & Wildlife board as there is no forest land in the vicinity.			
iv.	PP has to abide by the conditions stipulated by SEAC & SEIAA.	We will abide by the conditions stipulated by SEAC & SEIAA.			

V.	The height, Construction built up area of proposed construction shall be in accordance with the existing FSI/FAR norms of the urban local body & it should ensure the same along with survey number before approving layout plan & before according commencement certificate to proposed work. Plan approving authority should also ensure the zoning permissibility for the proposed project as per the approved development plan of the area.	The height, Construction built up area of proposed construction is in accordance with the existing FSI/FAR norms of the urban local body. Proposed project is in the residential zone as per the approved development plan of the area.
vi.	If applicable Consent for Establishment shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.	'Consent for Establishment' was obtained from Maharashtra Pollution Control Board. Copy of same is attached as Annexure 4. & 'Consent for Operate' was obtained from Maharashtra Pollution Control Board. Copy of same is attached as
vii.	All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase	Annexure 5. Sanitary facilities such as toilets for ladies and Gents was provided onsite.
viii.	Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.	Drinking water and mobile toilets were provided for labors during construction on site
ix.	The solid waste generated should be properly collected and segregated. dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.	The solid waste was segregated and recyclable material was sold to recyclers and inert material was used for site leveling.
X.	Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	All construction waste was collected and segregated properly at site. Most of it was reused for construction activity and surplus is disposed off safely at approved sites with prior approval of competent authority.

xi.	Arrangement shall be made that waste water and storm water do not get mixed.	Waste water will be treated in STP & excess treated water will be Connected to Municipal sewer drain. Maximum storm water will
		be recharged through recharge pits and excess storm water will be drain through municipal storm water line. Hence, we ensure that waste water
xii.	All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.	and storm water will not get mixed. Yes, we had storing excavated topsoil, same was used for horticulture / landscape development within the project site.
xiii.	Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.	Construction debris were used for base preparation of the road and for site leveling.
xiv.	Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.	We are provide green belt around the periphery as per CPCB guidelines and maintain it.
XV.	Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.	Soil testing was done, according to reports all the parameters are within limit and so there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants. Monitoring reports are attached as Annexure 7 .
xvi.	Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dumpsites for such material must be secured so that they should not leach into the ground water	We had taking proper measures
xvii.	Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.	Paint & used oil were generated at site which was disposed through MPCB authorized vendors.
xviii.	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments	We had used low Sulphur DG type generator during construction.

	(Protection) Rules prescribed for air and noise emission standards.	
xix.	The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from concern authority shall be taken	We are using DG set only in case of power failure and hence not much diesel is being stored at site.
XX.	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.	Construction vehicles was checked for PUC certificate before entry.
xxi.	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.	Care was taken to maintain the noise level within limits at site. Construction activities was limited to daytime only. Noise shields was provided for heavy construction equipment's. PPE was also provided to labors.
xxii.	Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September 1999 and amended as on 27th August, 2003. (The above condition is applicable only if the project site is located within the 100Km of Thermal Power Stations).	NA as site is away from Thermal Power Stations.
xxiii.	Ready mixed concrete must be used in building construction.	Yes we had using Ready mixed concrete in construction.
xxiv	Storm water control and its re-use as per CGWB and BIS standards for various applications.	RWH Pits are provided for the same.
XXV	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.	We are using tanker water for construction. Still we will reduce the water demand during construction by adopting suggested measures.

xxvi	The ground water level and its quality should	Condition is noted.
	be monitored regularly in consultation with	
	Ground Water Authority.	
xxvii	The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned	The treated sewage is used for flushing & gardening purpose. Discharge of unused treated affluent shall conform to the norms of MPCB.
	for operation. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treated effluent emanating from STP shall be recycled/refused to the maximum extent possible. Discharge of this unused treated affluent, if any should be discharge in the sewer line. Treatment of 100% gray water by decentralized treatment should be done. Necessary measures should be made to mitigate	
xxviii	the odour problem from STP. Permission to draw ground water and construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project	We have obtained CGWA NOC. Attached as Annexure 8 .
xxix	Separation of gray and black water should be done by the use of dual plumbing line for separation of gray and black water.	Dual plumbing shall be provided in buildings.
XXX	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensorbased control.	We are using low flow fixtures in toilets to minimize wastage of water.
xxxi	Use of glass may be reduced up to 40% to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.	Condition is noted. We have reduced use of glass.
xxxii	Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.	Condition is noted. We will abide to Energy Conservation Building Code.
xxxiii	Energy conservation measures like installation of CFLs /TFLs for the lighting the areas outside the building should be integral part of the	Condition is noted. We will adopt energy conservation measures.

	project design and should be in place before	
	project commissioning. Use CFLs and TFLs	
	should be properly collected and disposed	
	off/sent for recycling as per the prevailing	
	guidelines/rules of the regulatory authority to	
	avoid mercury contamination. Use of solar	
	panels may be done to the extent possible like	
	installing solar street lights, common solar	
	water heaters system. Project proponent should	
	install, after checking feasibility, solar plus	
	hybrid non-conventional energy source as	
	source of energy.	
xxxiv	Diesel power generating sets proposed as	DG Sets are provided for power
	source of backup power for elevators and	back up. DG sets are provided with
	common area illumination during operation	silencer and acoustic enclosures.
	phase should be of enclosed type and conform	Stack has been provided as per
	to rules made under the Environment	MPCB norms.
	(Protection) Act, 1986. The height of stack of	
	DG sets should be equal to the height needed	
	for the combined capacity of all proposed DG	
	sets. Use low sulphur diesel. The location of	
	the DG sets may be decided with in	
	consultation with Maharashtra Pollution	
	Control Board.	
XXXV	Noise should be controlled to ensure that it	Yes we are maintaining noise level
AAAV		
	does not exceed the prescribed standards.	as per standards norms.
	During nighttime the noise levels measured at	
	the boundary of the building shall be restricted	
	to the permissible levels to comply with the	
	prevalent regulations.	
xxxvi	Traffic congestion near the entry and exit	Parking will be fully internalized.
	points from the roads adjoining the proposed	No public space will be utilized.
	project site must be avoided. Parking should be	
	fully internalized and no public space should be	
	utilized.	
xxxvii	Opaque wall should meet prescriptive	Opaque wall shall meet prescriptive
	requirement as per Energy Conservation	requirement as per Energy
	Building Code, which is proposed to be	Conservation Building Code.
	mandatory for all air-conditioned spaces while	
	it is aspiration for non-air-conditioned spaces	
	by use of appropriate thermal insulation	
	of ase of appropriate merinal insulation	

	material to fulfill requirement.	
xxxviii	The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.	Condition is noted. Adequate distance will be provided for the moment of fresh air.
xxxix	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.	Dedicated site engineer and supervisory staff is appointed to take care of the monitoring and overall implementation.
XL	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.	Construction was started after obtaining environmental clearance (EC). The copy of EC letter is attached as Annexure-2 .
XLI	Six monthly monitoring reports should be submitted to the Regional office MoEF, Bhopal with copy to this department and MPCB.	We will submit six monthly report along with necessary documents.
XLII	Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement in Para 2. Prior certification from appropriate authority shall be obtained.	Condition Noted and will complied.
XLIII	Wet garbage should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. Local authority should ensure this.	Wet Garbage convert to compost through Organic Waste Convertor. Generated manure is used for gardening
XLIV	Local body should ensure that no occupation certification is issued prior to operation of STP/MSW site etc. with due permission of	Condition is noted.

	MPCB.	
XLV	A complete set of all the documents submitted	Condition is noted.
	to Department should be forwarded to the	
	Local authority and MPCB.	
XLVI	In the case of any change(s) in the scope of the	In case we are crossing BUA given
	project, the project would require a fresh	in the EC we will take prior revised
777 7777	appraisal by this Department.	EC.
XLVII	A separate environment management cell with	Separate environment management
	qualified staff shall be set up for implementation of the stipulated environmental	cell will be formed by registration of society and formation of a
	safeguards.	separate EMP account.
XLVIII	Separate funds shall be allocated for	Separate funds have been allocated
	implementation of environmental protection	for implementation of
	measures/EMP along with item-wise breaks-up.	environmental protection
	These costs shall be included as part of the	measures/EMP Annexure 3
	project cost. The funds earmarked for the	
	environment protection measures shall not be	
	diverted for other purposes and year-wise	
	expenditure should reported to the MPCB &	
XLIX	this department.	Condition Noted.

8.	In case of any deviation or alteration in the	Condition is noted.
	project proposed from those submitted to this	
	department for clearance, a fresh reference	
	should be made to the department to assess the	
	adequacy of the condition(s) imposed and to	
	incorporate additional environmental protection	
	measures required, if any.	
9.	The above stipulations would be enforced	Condition is noted.
	among others under the Water (Prevention and	
	Control of Pollution) Act, 1974, the Air	
	(Prevention and Control of Pollution) Act,	
	1981, the Environment (Protection) Act, 1986	
	and rules there under, Hazardous Wastes	
	(Management and Handling) Rules, 1989 and	
	its amendments, the public Liability Insurance	
	, 1	

	Act, 1991 and its amendments.	
10.	Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1stFloor, D-, Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Condition is noted.

Section 5: Monitoring and Analysis

Monitoring of Air quality, Water quality, Soil quality, Noise level and DG set stack emissions at construction site. Monitoring was done and samples were collected as per standard norms. All samples were analyzed in NABL accredited laboratory. The details of sampling parameters were given in following table.

Sr. No.	Environmental	Monitoring Parameters	
	Components		
1	Air	PM ₁₀ , PM _{2.5} , SO ₂ , NO ₂ , O ₃ , Pb, CO, NH ₃ , C ₆ H ₆ , Benzo	
		(a) Pyrene – Particulate Phase only, As, Ni	
2	Water	Colur, Odour, Turbidity, pH, TDS, Total Alkalinity,	
		Total Hardness, Ca, Mg, Cl ⁻ , SO ₄ , NO ₃ , Fe, Mn, F, Pb,	
		Cu, Zn, Cr ⁶⁺ , As, B, Residual Chlorine, Al, Cd, Se, Hg,	
		Pesticides, Mineral Oil	
3	Noise	Leq	
4	Soil	pH, Electrical Conductivity, Total Nitrogen as N,	
		Phosphate as P, Potasium as K, Exchangeable Calcium	
		as Ca, Exchangeable Magnesium as Mg, Exchangeable	
		Sodium as Na, Organic Matter, Texture	

Monitoring results are attached as **Annexure 7** which indicates that parameters of all environmental components are within standard limit and there is no pollution at site.

STATE LEVEL ENVIRONMENT IMPACT ASSESSMENT AUTHORITY

Environment department, Room No. 217, 2nd floor, Mantralaya, Annexe, Mumbai- 400 032. Date:November 7, 2019

Mr. Sarvesh Javdekar (M/s. Vilas Javdekar Eco Shelters Pvt. at 29/1, 29/2, 31, 32(p), 43/5, 43/6, 43/7

Environment Clearance for Proposed expansion of Residential & Commercial Project- 'YashONE Hinjawadi' at S.no. 29/1, 29/2, 31, 32(P), 43/5, 43/6, 43/7, village - Mann, Taluka - Mulshi, Pune by M/s. Vilas Javdekar Eco Shelters Pvt. Ltd. **Subject:**

Sir,

This has reference to your communication on the above mentioned subject. The proposal was considered as per the EIA Notification - 2006, by the State Level Expert Appraisal Committee-III, Maharashtra in its 94th meeting and recommend the project for prior environmental clearance to SEIAA. Information submitted by you has been considered by State Level Environment Impact Assessment Authority in its 179th meetings.

2. It is noted that the proposal is considered by SEAC-III under screening category 8 (a) B2 as per EIA Notification 2006.

Brief Information of the project submitted by you is as below :-

1.Name of Project	Residential & Commercial Project- 'YashONE Hinjawadi'			
2.Type of institution	Private			
3.Name of Project Proponent	Mr. Sarvesh Javdekar (M/s. Vilas Javdekar Eco Shelters Pvt. Ltd.)			
4.Name of Consultant	Sneha Hi Tech Products			
5.Type of project	Housing Project			
6.New project/expansion in existing project/modernization/diversification in existing project	Expansion in existing project			
7.If expansion/diversification, whether environmental clearance has been obtained for existing project	Yes EC was obtained from Envt. Dpt. Govt. of Maharashtra vide no. SEIAA-EC-0000000431 dated 18.09.2018			
8.Location of the project	29/1, 29/2, 31, 32(p), 43/5, 43/6, 43/7			
9.Taluka	Mulshi			
10.Village	Mann			
Correspondence Name:	Mr. Sarvesh Javdekar (M/s. Vilas Javdekar Eco Shelters Pvt. Ltd.)			
Room Number:	306			
Floor:	3rd floor			
Building Name:	Siddharth Towers			
Road/Street Name:	Sangam Press Road			
Locality:	Near Karishma Housing Society,			
City:	Pune- 411038			
11.Whether in Corporation / Municipal / other area	PMRDA			
	Yes, IOD is obtained			
12.IOD/IOA/Concession/Plan Approval Number	IOD/IOA/Concession/Plan Approval Number: BMU/ C.R.No.1131/Mauze Maan/ S. No. 29/1(P) and others dated 23/08/2019			
	Approved Built-up Area: 148060.75			
13.Note on the initiated work (If applicable)	Work was initiated on site as per the earlier EC. Till 1st July 2019, first floor slab of Bldg. A was completed and first slab of bldg. B is in process			
14.LOI / NOC / IOD from MHADA/ Other approvals (If applicable)	NA			
15.Total Plot Area (sq. m.)	57239 .00 m2			
16.Deductions	19171.83 m2

3. The proposal has been considered by SEIAA in its 179th meeting & decided to accord environmental clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implementation of the following terms and conditions:

Specific Conditions:

I	PP to ensure that CER plan get approved from Municipal Commissioner/District Collector.
п	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F.No.22-34/2018-IA.III dt.04.01.2019.
Ш	SEIAA decided to grant EC for -FSI: 78790 m2, Non-FSI:69269.80 m2 and Total BUA: 148060.75 m2 (Plan Approval no-BMU/CR/1131/Mauze Maan/S.N.29/1(P) & ors, Date-23.08.2019)

General Conditions:

E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.
The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild life clearance granted to the project which will be considered separately on merit.
PP has to abide by the conditions stipulated by SEAC& SEIAA.
The height, Construction built up area of proposed construction shall be in accordance with the existing FSI/FAR norms of the urban local body & it should ensure the same along with survey number before approving layout plan & before according commencement certificate to proposed work. Plan approving authority should also ensure the zoning permissibility for the proposed project as per the approved development plan of the area.
If applicable Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.
All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
The solid waste generated should be properly collected and segregated. dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.
Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
Arrangement shall be made that waste water and storm water do not get mixed.
All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.

SEIAA Meeting No: 179 Meeting Date: November 2, 2019 (SEIAA-STATEMENT-0000003661) SEIAA-MINUTES-0000002680 SEIAA-EC-0000002062

Page 10 of 13

Shri. Anil Diggikar (Member Secretary SEIAA)

XV	Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
XVI	Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dumpsites for such material must be secured so that they should not leach into the ground water.
XVII	Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
XVIII	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.
XIX	The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from concern authority shall be taken.
XX	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
XXI	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.
XXII	Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September 1999 and amended as on 27th August, 2003. (The above condition is applicable only if the project site is located within the 100Km of Thermal Power Stations).
XXIII	Ready mixed concrete must be used in building construction.
XXIV	Storm water control and its re-use as per CGWB and BIS standards for various applications.
XXV	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
XXVI	The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
XXVII	The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Discharge of this unused treated affluent, if any should be discharge in the sewer line. Treated effluent emanating from STP shall be recycled/refused to the maximum extent possible. Discharge of this unused treated affluent, if any should be discharge in the sewer line. Treatment of 100% gray water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP.
XXVIII	Permission to draw ground water and construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
XXIX	Separation of gray and black water should be done by the use of dual plumbing line for separation of gray and black water.
XXX	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
XXXI	Use of glass may be reduced up to 40% to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.
XXXII	Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.
XXXIII	Energy conservation measures like installation of CFLs /TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible like installing solar street lights, common solar water heaters system. Project proponent should install, after checking feasibility, solar plus hybrid non-conventional energy source as source of energy.
xxxiv	Diesel power generating sets proposed as source of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.
XXXV	Noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.
XXXVI	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
XXXVII	Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code, which is proposed to be mandatory for all air-conditioned spaces while it is aspiration for non-air-conditioned spaces by use of appropriate thermal insulation material to fulfill requirement.
XXXVIII	The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.
XXXIX	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.
XL	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.

XLI	Six monthly monitoring reports should be submitted to the Regional office MoEF, Bhopal with copy to this department and MPCB.
XLII	Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement in Para 2. Prior certification from appropriate authority shall be obtained.
XLIII	Wet garbage should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. Local authority should ensure this.
XLIV	Local body should ensure that no occupation certification is issued prior to operation of STP/MSW site etc. with due permission of MPCB.
XLV	A complete set of all the documents submitted to Department should be forwarded to the Local authority and MPCB.
XLVI	In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Department.
XLVII	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
XLVIII	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure should reported to the MPCB & this department.
XLIX	The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at http://ec.maharashtra.gov.in.
L	Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1st June & 1st December of each calendar year.
LI	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
LII	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM. SO2, NOx (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
LIII	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
LIV	The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.

Shri. Anil Diggikar (Member Secretary SEIAA)

- 4. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.
- 5. In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.
- 6. The Environment department reserves the right to add any stringent condition or to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the department or for that matter, for any other administrative reason.
- 7. Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, and amendments by MoEF&CC Notification dated 29th April, 2015.
- 8. In case of any deviation or alteration in the project proposed from those submitted to this department for clearance, a fresh reference should be made to the department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.
- 9. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.
- 10. Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1stFloor, D-, Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

Consent order No: Format1.0/BO/JD (WPC)/UAN-081084/CE/CC-200 | 000-722

Date / 12019 09/01/2020

M/s. Vilas Javdekar Eco Shelters Pvt Ltd. S.No.29/1, 29/2, 31, 32(P), 43/5, 43/6, 43/7, Village- Maan Tal: Mulshi, Dist: Pune.

Amendment in Consent to Establish for Expansion in plot area and BUA

Construction of Housing Projects granted under Red Category.

- Ref:

Your Application vide UAN No. -0000081084 Dated: 07/10/2019.

Minutes of 8th Consent Committee meeting held on 26/11/2019.

For: Amendment in Consent to Establish for Expansion in plot area and BUA of Construction of Housing project under Section 25 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization under Rule 5 of the Hazardous and Other Wastes (M & TM) Rules, 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

- 1. The consent is granted for a period up to commissioning of the project or of 5 years whichever is earlier.
- 2. The proposed capital investment of the project is Rs.15.6 Cr. (As per C.A certificate submitted by project proponent)

Amendment in Consent to Establish for Expansion in plot area and BUA is valid for construction of Housing Project named as M/s. Vilas Javdekar Eco Shelters Pvt. Ltd, S.No.29/1, 29/2. 31, 32(P), 43/5, 43/6, 43/7, Village- Maan Tal: Mulshi, Dist: Pune, for total plot area of 57,239.00 Sqm and Proposed total construction built up area 1,48,060.75 Sqm including utilities and services and as per Commencement Certificate issued by local body.

3. Conditions under Water (P&CP), 1974 Act for discharge of effluent:

Sr. No.	Description	Permitted quantity of discharge (CMD)	Standards to be achieved	Disposal
1.	Trade effluent	NIL	NA	NA
2.	Domestic effluent	271.00	As per Schedule –I	60% should be reused % recycled and remaining should be discharged in municipal sewer

4. Conditions under Air (P& CP) Act. 1981 for air emissions:

	Description of stack/ source	Capacity	Number Of Stack	Standards to be
1.	DG Set	160 KVA	2	As Per Schedule -II
6.	DG Set	500 KVA	3	As Per Schedule -II

5. Conditions under Solid Waste Management Rules, 2016:

Sr. no.	Type Of Waste	Quantity & UOM	Treatment	Disposal
1	Wet garbage	960.00 Kg/Day	Organics waste Converter with composting facility / Biogas digester with composting facility	Used as Manure
2	Dry garbage	640.00 Kg/Day	-	Segregate and Hand over to Local Body for recycling
3.	STP sludge	85.00 Kg/day	STP	Used as manure

- Conditions under Hazardous and Other Wastes (M & TM) Rules, 2016 for treatment and disposal of hazardous waste; NIL.
- The Board reserves the right to review, amend, suspend, revoke etc. this consent and the same should be binding on the industry.
- This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government authorities.
- Project Proponent shall comply the Construction and Demolition Waste Management Rules, 2016 which is notified by Ministry of Environment, Forest and Climate Change dtd.29/03/2016.
- Project Proponent shall submit an affidavit in Board's prescribed format within 15 days regarding the compliance of conditions of EC/CRZ clearance and C to E.
- Project Proponent shall install online monitoring systems for BOD, TSS and flow at the outlet of STP.
- Project Proponent shall provide Organic waste digester with composting facility or Biogas digester with composting facility.
- 13. The applicant should comply with the conditions stipulated in Environmental Clearance Obtained from SEIAA, Environment Department, Government of Maharashtra,dt.07/11/2019 for total plot area 57,239,00 Sqm and total construction BUA 1,48,060.75 Sqm.

Maharashtra Pollution Control Board **5e16bfd7d49d022d5b6ef7b5**

Schedule-l

Terms & conditions for compliance of Water Pollution Control:

- A] As per your application, you have proposed to install of Sewage Treatment Plants (STP) with the design capacity of 715.00 CMD
 - B] The Applicant shall operate the effluent treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

1.	pH	Between	6.5 to 9.0 20 mg/l. 10 mg/l.
2.	Total Suspended Solids	Not more than	
3.	BOD 3 Days 27 degree C	Not more than	
4.	Chemical oxygen Demand (COD)	Not to more than	50 mg/l,
5.	NH4 N	Not more than	5 mg/l.
6.	N Total	Not more than	10 mg/l.
7.	Fecal Coliform MPN/100 MI	Less than	100.0

- C) The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, firefighting, on land for gardening etc and remaining shall be discharged in to the municipal sewerage system.
- D] Project proponent shall operate STP for five years from the date of obtaining occupation.

The Board reserves its rights to review plans. Specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant should obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto

- The industry should ensure replacement of pollution control system or its parts after expiry o
 its expected life as defined by manufacturer so as to ensure the compliance of standards and
 safety of the operation thereof.
- The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, by installing water meters and other provisions as contained in the said act.

Sr. Purpose for water consumed no.	Water consumption quantity (CMD)
Domestic purpose	289.00

4) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

M/s. Vilas Javdekar Eco Shelters Pvt Ltd

UAN 081084

Maharashtra Pollution Control Board **5e16bfd7d49d022d5b6ef7b5**

Schedule-II

Terms & conditions for compliance of Air Pollution Control:

 As per your application, you have proposed to install the Air pollution control (APC)system and also proposed to erect following stack (s) and to observe the following fuel pattern-

Sr. No.	Stack Attached To	APC System	Height in Mtrs.	Type Of Fuel	Quantity	UOM	S%	SO ₂
1.	DG Set (160 KVA)	Acoustic enclosure	3.00	Diesel	20.0	Lit/Hr		
2.	DG Set (160 KVA)	Acoustic enclosure	3.00	Diesel	20.0	Lit/Hr	-	
2.	DG Set (500 KVA)	Acoustic enclosure	4.47	Diesel	20.0	Lit/Ar	2	-
3.	DG Set (500 KVA)	Acoustic enclosure	4.47	Diesel	20.0	Lit/Hr		
4.	DG Set (500 KVA)	Acoustic enclosure	4.47	Diesel	20.0	Lit/Hr		-

^{*} Above roof of the building in which it is installed.

The applicant should operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

3. The Applicant should obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement alteration well before its life come to an end or erection of new pollution control equipment. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

Maharashtra Pollution Control Board

5e16bfd7d49d022d5b6ef7b5

Schedule-IV

General Conditions:

The following general conditions shall apply as per the type of the industry.

- The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and environmental protection Act 1986 and Solid Waste Management Rules, 2016 and E-Waste (Management) Rules, 2016.
- 3) Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4) Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5) Conditions for D.G. Set
 - Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
 - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
 - c) The industry shall take adequate measures for control of noise levels from its own sources within the premises in respect of noise to less than 55 dB(A) during day time and 45 dB(A) during the night time. Day time is reckoned between 6 a.m. to 10 p.m and night time is reckoned between 10 p.m to 6 a.m.
 - Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper sitting and control measures.
 - e) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
 - f) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
 - g) D.G. Set shall be operated only in case of power failure.
 - The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
 - The applicant shall comply with the notification of MOEF dated 17.05.2002 regarding noise limit for generator sets run with diesel.
- Solid Waste The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rules, 2016 & E-Waste (M) Rules, 2016.
- Affidavit undertaking in respect of no change in the status of consent conditions and compliance
 of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8) The treated sewage shall be disinfected using suitable disinfection method
- 9) The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992

10) The applicant shall obtain Consent to Operate from Maharashtra Pollution Control Board before commissioning of the project.

Copy to:

- 1. Regional Officer, MPCB, Pune and Sub-Regional Officer, MPCB, Pune II
- They are directed to ensure the compliance of the consent conditions.
- 2. Chief Accounts Officer, MPCB, Sion, Mumbai

SCHEDULE-I

Terms & conditions for compliance of Water Pollution Control:

- A] As per your application, you have provided 2 STPs of 625 CMD & 90 CMD capacity with MBBR Technology.
 - B] The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

Sr.No	Parameters	Limiting concentration not to exceed in mg/l, except for pH
1	рН	5.5-9.0
2	BOD	10
3	COD	50
4	TSS	20
5	NH4 N	5
6	N-total	10
7	Fecal Coliform	less than 100

- C] The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to the sewerage system provided by local body.
- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act,1974 and as amended, and other provisions as contained in the said act.

Sr. No.	Purpose for water consumed	Water consumption quantity (CMD)
1.	Industrial Cooling, spraying in mine pits or boiler feed	0.00
2.	Domestic purpose	608.00
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	0.00
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	0.00

5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

SCHEDULE-II

Terms & conditions for compliance of Air Pollution Control:

1) As per your application, you have provided the Air pollution control (APC)system and erected following stack (s) and to observe the following fuel pattern-

Stack No.	Source	APC System provided/proposed	Stack Height(in mtr)	Type of Fuel	Content(in	Pollutant	Standard
S-1	DG set-160 KVA	Acoustic Enclosure	3.00	HSD 20.8 Ltr/Hr	1	SO2	9.94 Kg/Day
S-2	DG Set-500 kVA	Acoustic Enclosure	20.60	HSD 40.2 Ltr/Hr	1	SO2	19.29 Kg/Day

2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

Total Particular matter Not to exceed 150 mg/Nm3	Total Particular matter
--	-------------------------

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacemenalteration well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
- 5) Conditions for utilities like Kitchen, Eating Places, Canteens:
 - a) The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
 - b) The toilet shall be provided with exhaust system connected to chimney through ducting.
 - c) The air conditioner shall be vibration proof and the noise shall not exceed 68 dB(A).
 - d) The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such a way that no nuisance is caused to neighbors.

SCHEDULE-III

SCHEDULE-IV

General Conditions:

- 1 The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act,1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling Rule 2011.
- 3 Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4 Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5 Conditions for D.G. Set
 - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
 - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
 - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper sitting and control measures.
 - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
 - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
 - f) D.G. Set shall be operated only in case of power failure.
 - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
 - h) The applicant shall comply with the notification of MoEFCC, India on Environment (Protection) second Amendment Rules vide GSR 371(E) dated 17.05.2002 and its amendments regarding noise limit for generator sets run with diesel.
- Solid Waste The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rule 2016 & E-Waste (M & H) Rule 2011.
- 7 Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8 Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 9 The treated sewage shall be disinfected using suitable disinfection method.

- 10 The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 11 The applicant shall make an application for renewal of the consent at least 60 days before date of the expiry of the consent.

This certificate is digitally & electronically signed.

SCHEDULE-I

Terms & conditions for compliance of Water Pollution Control:

- A] As per your application, you have provided MBBR based Sewage Treatment Plants (STPs) of combined capacity 715 CMD for treatment of domestic effluent of 674 CMD.
 - B] The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

Sr.No	Parameters	Limiting concentration not to exceed in mg/l, except for pH
1	рН	5.5-9.0
2	BOD	10
3	COD	50
4	TSS	20
5	NH4 N	5
6	N-total	10
7	Fecal Coliform	less than 100

- C] The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to the sewerage system provided by local body.
- The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act,1974 and as amended, and other provisions as contained in the said act.

Sr. No.	Purpose for water consumed	Water consumption quantity (CMD)
1.	Industrial Cooling, spraying in mine pits or boiler feed	0.00
2.	Domestic purpose	836.00
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	0.00
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	0.00

5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

SCHEDULE-II

Terms & conditions for compliance of Air Pollution Control:

1) As per your application, you have provided the Air pollution control (APC)system and erected following stack (s) and to observe the following fuel pattern-

Stack No.	Source	APC System provided/proposed		Type of Fuel		Pollutant	Standard
S-1,S-2	DG Sets-2 Nos, 160 kVA each	Acoustic Enclosure	3.00	HSD 20.8 Ltr/Hr	1	SO2	9.98 Kg/Day
S-3,S-4,S-5	DG Sets-3 Nos, 500 kVA each	Acoustic Enclosure	4.50	HSD 100 Ltr/Hr	1	SO2	48 Kg/Day

2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

Total Particular matter	Not to exceed	150 mg/Nm3
-------------------------	---------------	------------

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacemenalteration well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

स्वच्छतेसाठी 'नॅनो हर्बल कवच'

संसर्गजन्य रोगांच्या प्रादर्भावापासून बचाव

म. टा. प्रतिनिधी, पुणे

सार्वजनिक ठिकाणी संसर्गजन्य रोगांच्या प्रादुर्भावापासून सामान्य लोकांचे रक्षण करण्यासाठी सावित्रीबाई फुले पुणे विद्यापीठाच्या 'एसपीपीय रिसर्च पार्क फाउंडेशन'च्या डिझाइन इनोव्हेशन

अनेकदा ग्रामीण पातळीवर अत्यंत चांगल्या आणि 66 अनकदा ग्रामाण पातळावर जाता ना स्वानिर्मिती होत असते. गरजेच्या विषयावर् संशोधन, नवनिर्मिती होत असते. एसपीपीय रिसर्च पार्क फाउंडेशनच्या माध्यमातून असे संशोधक व संशोधनाला व्यासपीठ देण्याचा आमचा प्रयत्न आहे.

- डॉ. नितीन करमळकर, कुलगुरू, सावित्रीबाई फुले पुणे विद्यापीठ

सेंटर आणि कराड येथील कृष्णा वैद्यकीय विज्ञान अभिमत विद्यापीठ यांच्यातर्फे 'नॅनो हर्बल कवच' हे उत्पादन तयार केले आहे. नॅनो हर्बल कवच जंत्नाशक म्हणून सार्वजनिक ठिकाणी वापरता येणार आहे. सावित्रीबाई फुले पुणे विद्यापीठाचे कलगुरू डॉ. नितीन करमळकर यांच्या हस्ते या 'नॅनो हर्बल कवच'चे उद्घाटन करण्यात आले. या वेळी प्र-कुलगुरू डॉ. एन. एस. उमराणी, कुलसचिव डॉ. प्रफुल्ल पवार, 'एसपीपीयू रिसर्च पार्क फाउंडेशन'चे मुख्य कार्यकारी अधिकारी डॉ. अरविंद शाळिग्राम, कृष्णा वैद्यकीय विद्यापीठाचे अतिरिक्त संशोधन संचालक डॉ. दिनेश अगरवाल आदी उपस्थित होते. या निर्मितीत विद्यापीठातील संशोधन शास्त्रज्ञ डॉ. जयंत पवार आणि फाउंडेशनच्या डॉ. पूजा दोशी यांनी योगदान दिले आहे.

New Delhi: Prime Minister Narendra Modi on Tuesday will launch a fifth generation (5G) mobile service testbed that will support the country's telecom industry and startups to validate their products, prototypes and solutions in next-generation technologies.

The 5G testbed has been developed as a multi-institute collaborative project by eight institutes led by Indian Institute of Technology (IIT) Madras at a cost of more than ₹220 crore, a government press release issued on Monday said.

Other institutes that participated in the project include IIT Delhi, IIT Hyderabad, IIT Bombay, IIT Kanpur, IISc Bangalore, Society for Applied Microwave Electronics Engineering & Research (Sameer), and Centre of Excellence in Wireless Technology (CEWIT).

The prime minister will launch the testbed at a virtual programme marking the rithms in 5G and next generation technologies," it said.

Its launch will come on a day when the Di-Communications Commission gital - the highest decision-making body of the Department of Telecommunications (DoT) - is likely to decide upon the modalities of the 5G spectrum auction.

DCC at a meeting is expected to decide upon the tenure for which to give out spectrum to telcos, the rollout obligations for certain 5G bands, and ways in which telcos could partner with the industry for private captive 5G networks, among other issues

Validity of this NOC shall be subject to compliance of the following mandatory conditions:

- No additional ground water abstraction and/or de-watering structures shall be constructed for this purpose without prior approval of the Central Ground Water Authority (CGWA).
- 2. The proponent shall seek prior permission from CGWA for any increase in quantum of groundwater abstraction (more than that permitted in NOC for specific period).
- 3. All new as well as existing ground water abstraction/ de-watering structures shall be fitted with digital water flow meters by the firm at its own cost immediately on completion of their construction or grant of NOC as the case may be. In case of renewal of NOCs, all existing ground water abstraction structures shall continue to be fitted with digital water flow meters. Intimation of installation of flow meters shall be sent by the proponent to the Regional Director of CGWB within 6 months of grant of NOC. Daily ground water abstraction data shall be monitored / continue to be monitored (in case of renewal) by the firm and recorded in a log book. Details of month-wise ground water abstraction shall be submitted to the Regional Director, CGWB, once every year.
- 4. In case the ground water abstraction is more than 10 m³/day, monthly water level monitoring data shall be maintained and submitted annually to the Regional Office of CGWB. Wherever groundwater withdrawal is more than 500 m³/day, the firm shall install telemetry system in one of the piezometers and share USER ID and password of the telemetry system with the Regional Director, CGWB.
- 5. In case ground water abstraction is more than 10 m³/day, ground water quality shall be monitored once in a year (during pre- monsoon period) and the report submitted to the Regional Office, CGWB. Wherever the extraction is less than 10 m³/day, ground water quality report shall be submitted by the proponent at the time of submission of self-compliance report.
- Ground water augmentation/harvesting measures, as stipulated in the NOC, shall be implemented (in new cases) / continue to be maintained (in case of renewal) in consultation with the concerned Regional Director, CGWB.
- 7. Proof of recharge/water harvesting structures constructed (photographs of structures) shall be submitted to the concerned Regional Director, CGWB within 6 months from the date of issue of NOC. The firm shall also undertake periodic maintenance of recharge/water harvesting structures at its own cost.
- 8. The project proponent shall take all necessary measures to prevent contamination of ground water in the premises failing which the firm shall be responsible for any consequences arising thereupon.
- 9. In case of industries that are likely to contaminate the ground water, no recharge measures shall be taken up by the firm inside the plant premises. The runoff generated from the rooftop shall be stored and put to beneficial use by the firm.
- 10. The firm shall optimize water use through recycling/ reuse of waste water after proper treatment.
- 11. Wherever the NOC is for abstraction of saline water and the existing wells (s) is /are yielding fresh water, the same shall be sealed and new tubewell(s) tapping saline water zone shall be constructed within 3 months of the issuance of NOC. The firm shall also ensure safe disposal of saline residue, if any.
- 12. In case of mining projects, additional key wells shall be established in consultation with the Regional Director, CGWB for ground water level monitoring four (4) times a year (January, May, August and November) in core as well as buffer zones of the mine.
- 13. Unexpected variations in inflow of ground water into the mine pit, if any, shall be reported to the concerned Regional Director, Central Ground Water Board.
- 14. The firm shall report compliance of the NOC conditions online in the website (www.cgwa-noc.gov.in) within one year from the date of issue of this NOC.
- 15. This NOC is subject to prevailing Central/State Government rules/laws/norms or Court orders related to construction of tube well/ground water abstraction structure / recharge or conservation structure/discharge of effluents or any such matter as applicable.
- 16. This NOC does not absolve the proponents of their obligation / requirement to obtain other statutory and administrative clearances from appropriate authorities.
- 17. The issue of this NOC does not imply that other statutory / administrative clearances shall be granted to the project by the concerned authorities. Such authorities would consider the project on merits and take decisions independently of the NOC.
- 18. This NOC is being issued without any prejudice to the directions of the Hon'ble NGT/court orders in cases related to ground water or any other related matters.
- 19. Application for renewal can be submitted online from 90 days before the expiry of NOC. Ground water withdrawal, if any, after expiry of NOC shall be illegal & liable for legal action as per provisions of Environment(Protection)Act,1986.
- 20. In case of any violation of NOC conditions or illegal extraction of Ground water the firm shall be liable to pay "Environmental Compensation"/ "Penalty", if any under Sec 15 of EPA 1986 as and when decided by statutory authorities.

(Non-compliance of the conditions mentioned above is likely to result in the cancellation of NOC and legal action against the proponent.)
